**"Bringing Registered Family Child Care
Providers Together"**

**The Mission of the Maryland State
Family Child Care Association
(MSFCCA) is to promote and enhance
our profession by advocating for
family child care providers through
education and collaboration with
local associations for the quality care
of all children.**

Who Are We?

MSFCCA is a greatly respected family child care association in Maryland that over the years has built and maintained partnerships with child advocacy groups, state agencies and legislators.

MSFCCA has given it's members a voice in all facets of issues relating to family child care and the children in care. MSFCCA, through their partnerships, is one of the few state associations nationwide that has consistently been asked to provide input regarding regulatory review and changes. The Goals and Purposes of the MSFCCA are:

- To support the local associations and other associates which make up the membership of the MSFCCA.
- To represent family child care providers by educating and advising legislators, regulators, and the general public on child care issues.
- To encourage all providers to be knowledgeable of and comply with the laws governing child care in Maryland.
- To promote quality training to enhance the professional skills of providers.
- To collaborate with other organizations to advocate for the

Why Join MSFCCA?

As Family Child Care Providers, we raise the level of professionalism by being advocates for children. We do this through memberships in local, state, and national associations, networking and mentoring with other professionals, training, and affiliate memberships with child advocacy agencies.

Your membership in a local association listed in this brochure will include automatic membership in the MSFCCA. If you do not have a county association listed, consider joining one that is convenient to you. If desired, Associate Memberships directly through MSFCCA are available for \$50.00 annually and run from January 1st to December 31st. MSFCCA has been working on behalf of providers and children since 1983 and plays an active part in the decision making process on issues pertaining to the early education of children in Maryland.

Come and be a part of an organization

**Quality Child
Care is the
Right of All
Children.**
